## OBJECTIVE

---

Passionate Full Stack Developer seeking a challenging position where I can apply and expand my knowledge in web and mobile development. Committed to creating innovative and scalable solutions using modern technologies such as React, Vue.js, and Node.js. My goal is to contribute to impactful projects while continuing to enhance my technical and team collaboration skills.

## EDUCATION

---

**Technical Degree in Internet Computing**, IFES

Expected graduation - 2025

## SKILLS

---

**Technical skills**      Typescript, Vue.js, Nuxt, React, Next.js, React Native, Jetpack Compose  
Express.js, Socket.io, Prisma, PostgreSQL,  
MongoDB, Redis, Git, Docker, Nginx

**Soft skills**            Effective communication, teamwork, problem-solving,  
adaptability, time management, critical thinking,  
quick learning ability, attention to detail

## EXPERIENCE

---

**Front-end Developer**

2023 - 2024

Life Solutions

*Colatina, ES*

- Developed the front-end of an internal business management system using Next.js, providing an intuitive and responsive interface for users.
- Implemented reusable components and optimized application performance, ensuring fast loading times and a smooth experience for users.
- Collaborated directly with the back-end team to integrate APIs and ensure the complete functionality of the system.

**Mobile Developer**

2023 - 2024

Life Solutions

*Colatina, ES*

- Created a complete social network application using React Native, developing attractive interfaces and interactive features for users.
- Implemented real-time communication features, profile management, and content sharing, following best practices in UX/UI.
- Participated in app development from initial planning to the first beta version, establishing the foundation for future launch.

## PROJECTS

---

**Personal Portfolio - [migliorelli.dev](http://migliorelli.dev).** Developed my personal portfolio website using Vue.js, Typescript, and Tailwindcss, with responsive design and optimized for SEO. The site showcases my projects, skills, and professional experience, serving as a digital showcase to demonstrate my work and technical knowledge.

**WB Pinturas - Landing Page.** Created a professional landing page for my father's painting company, using modern front-end technologies. The site presents the services offered, gallery of completed work, and contact form, helping to increase visibility and attract new customers.
